

Project Title : Historical Badminton Performance Analytics (2023-2026)***Project Objectives :***

This project aims to analyze badminton match performance data collected between 2023 and 2026. The objective is to identify trends in participation, performance, tournament progression, event-wise results, and category-wise achievements through data analysis and visualization

Dataset Description :

- Total matches analyzed: 40
- Time period: 2023-2026
- Data source: Tournament records and match history
- Variables included:
 - Year
 - Tournament level
 - Category
 - Event type
 - Round
 - Score for
 - Score against

Tools Used :

- Google Sheets
- Spreadsheet Formulas
- Data Visualization
- Dashboard Design

Skills Demonstrated :

- Data Cleaning

- Data Organization
- Data Analysis
- Dashboard Visualization
- Dashboard Development
- KPI Analysis
- Trend Analysis
- Sports Analysis
- Report Writing

Key Insights :

- Overall Win Rate: 55%
- Highest Activity Year: 2024 (17 matches)
- Strongest Major Category: GS U-17 (73.68% win rate)
- Most Played Event: Singles (35 matches)
- Best Tournament-Level Performance: Zonals (100% win rate) and Nationals (75% win rate)
- Reached the Final Stage: 2 times
- Highest Yearly Win Rates: 58.8% (2024)

Project Structure :

- 1) Project Overview
- 2) Summary Dashboard
- 3) Match Data
- 4) Event Analysis
- 5) Category Analysis
- 6) Tournament Progression Analysis
- 7) Performance Growth Analysis

Conclusion :

This project demonstrates the use of spreadsheet-based analytics to evaluate badminton performance across multiple dimensions, including participation, win rates, event types, categories, and tournament progression. The analysis provides meaningful insights into competitive performance and highlights the application of data analytics techniques in sports.

Total Matches	40
Total Wins	22
Total Losses	18
Win %	55.00%

Year	Matches	Wins	Win %
2023	2	1	50.00%
2024	17	10	58.80%
2025	12	7	58.30%
2026	9	4	44.40%

Year	Win %
2023	50.00%
2024	58.80%
2025	58.30%
2026	44.40%

Tournament	Matches	Wins	Win %
Zonals	4	4	100.00%
District	6	2	33.33%
State	21	10	47.62%
Nationals	8	6	75.00%

Tournament	Win %
Zonals	100.00%
District	33.33%
State	47.62%
Nationals	75.00%

KEY FINDINGS :

- 1) A total of 40 badminton matches played between 2023 and 2026 were analyzed.
- 2) The overall performance record consisted of 22 wins and 18 losses, resulting in an overall win rate of 55%.

- 3) The highest number of matches was played in 2024, with a total of 17 matches.
- 4) The highest yearly win rate was recorded in 2024 (58.8%), followed closely by 2025 (58.3%).
- 5) State-level tournaments accounted for the largest share of matches, with 21 matches played.
- 6) The highest observed tournament win rates were at Zonals (100%, based on 4 matches) and Nationals (75%, based on 8 matches).

CONCLUSIONS :

The analysis of badminton match performance from 2023 to 2026 demonstrates consistent competitive participation and an overall positive performance record. The year 2024 represented the peak period in terms of match activity and win rate. Performance across tournament levels highlights particularly strong results at Zonal and National competitions. Overall, the dashboard provides meaningful insights into participation trends, competitive performance, and tournament achievements throughout the study period.

Date	Year	Tournament	Opponent	Gender	Category	Event	Round	Match Format	Result	Score
8/18/2023	2023	State	Ipshita	Female	GS U-15	Singles	Round of 128	21	Win	21-11, 21-12

10/13/2025	2025	State	Alina Jain	Female	GS U-17	Singles	Round of 64	21	Win	21-12, 21-9
10/15/2025	2025	State	Nayonika Manral	Female	GS U-17	Singles	Round of 32	21	Loss	13-21, 6-21
10/28/2025	2025	Nationals	Chaya	Female	GS U-19	Singles	Round of 64	21	Win	21-5, 21-9
10/29/2025	2025	Nationals	Kripa Bhandari	Female	GS U-19	Singles	Round of 32	21	Win	21-11, 21-18
10/29/2025	2025	Nationals	Spriha Nahar	Female	GS U-19	Singles	Round of 16	21	Win	21-17, 21-13
10/30/2025	2025	Nationals	Prasiddhi Gupta	Female	GS U-19	Singles	Quarterfinal	21	Loss	15-21, 11-21
4/28/2026	2026	District	Meha Verma	Female	GS U-17	Singles	Round of 32	15	Win	15-6, 15-4
4/29/2026	2026	District	Meghna	Female	GS U-17	Singles	Round of 16	15	Loss	8-15, 12-15
4/29/2026	2026	District	Vaibhavi Sharma	Female	GS U-19	Singles	Quarterfinal	15	Loss	6-15, 9-15
4/29/2026	2026	Distict	Paras Yadav, Davanshi Yadav	Male, Female	XD U-17	Mixed Doubles	Semifinal	15	Loss	21-18, 18-21, 14-21
5/20/2026	2026	State	Bhriti Phogat	Female	GS U-17	Singles	Round of 128	15	Win	15-10, 18-16
5/20/2026	2026	State	Anushka Kakkar	Female	GS U-17	Singles	Round of 64	15	Win	13-15, 16-14, 15-12

Date	Year	Tournament	Opponent	Gender	Category	Event	Round	Match Format	Result	Score
5/21/2026	2026	State	Vidhhan, Vaanya	Male, Female	XD U-17	Mixed Doubles	Round of 32	15	Win	12-15, 15-11, 15-10
5/22/2026	2026	State	Ananya Chauhan	Female	GS U-17	Singles	Round of 32	15	Loss	7-15, 9-15
5/22/2026	2026	State	Elvin, Shreya	Male, Female	XD U-17	Mixed Doubles	Round of 16	15	Loss	4-15, 3-15

Event	Matches	Wins	Losses	Win %
Singles	35	20	15	57.14%
Doubles	1	0	1	0.00%
Mixed Doubles	4	2	2	50.00%

Event	Win %
Singles	57.14%
Doubles	0.00%
Mixed Doubles	50.00%

Key Findings :

- 1) Singles was the most frequently played event, accounting for 35 out of 40 matches (87.5%).
- 2) The highest win rate was recorded in Singles (57.14%).
- 3) Mixed Doubles achieved a 50% win rate, with 2 wins and 2 losses.

- 4) Only one doubles match was played, resulting in a loss
- 5) The data indicates that most competitive experience and success came from Singles events.

Conclusion :

The event-wise analysis shows that Singles was the primary event category, accounting for the majority of matches played during the study period. Singles also produced the highest number of wins and the strongest overall performance, reflecting greater experience and consistency in this event. Mixed Doubles demonstrated a balanced performance with an equal number of wins and losses, while Doubles participation was limited. Overall, the results indicate that the athlete's competitive strengths and most significant achievements were concentrated in Singles event.

Category	Matches	Wins	Losses	Win %
GS U-15	8	3	5	37.50%
GS U-17	19	14	5	73.68%
GS U-19	8	3	5	37.50%
GD U-17	1	0	1	0.00%
XD U-15	1	1	0	100.00%
XD U-17	3	1	2	33.33%

Category	Win %
GS U-15	37.50%
GS U-17	73.68%
GS U-19	37.50%
GD U-17	0.00%
XD U-15	100.00%
XD U-17	33.33%

Key Findings :

- 1) GS U-17 was the most active category with 19 matches played.
- 2) GS U-17 achieved the highest win rate among major categories at 73.68%.
- 3) GS U-15 and GS U-19 recorded identical win rates of 37.5%.

- 4) XD U-17 recorded a win rate of 33.33% across 3 matches.
- 5) Limited participation in GD U-17 and XD U-15 provides insufficient data for long-term performance assessment.

Conclusion :

Category-wise analysis indicates that performance was strongest in GS U-17 category, where both participation and success rates were highest. Results suggest that competitive performance improved significantly within the U-17 age group. While some doubles categories showed extreme percentages, the small number of matches limits the reliability of those observations.

Round	Count
Round of 256	1
Round of 128	5
Round of 64	11
Round of 32	8
Round of 16	6
Quarterfinal	5
Semifinal	2
Final	2

Key Findings :

- 1) A total of 40 badminton matches with tournament progression data were analyzed.
- 2) The Round of 64 was the most frequently reached stage, accounting for 11 matches.
- 3) The athlete reached the Round of 32 eight times and the Round of 16 six times.
- 4) Advancement to the Quarterfinal stage was achieved five times.
- 5) The athlete reached the Semifinal stage twice and the Final stage twice during the study period.
- 6) The distribution indicates consistent progression beyond the early rounds in multiple tournaments.

Conclusion :

The tournament progression analysis demonstrates steady competitive development between 2023 and 2026. While most matches occurred in the Round of 64 and Round of 32 stages, multiple appearances in Quarterfinals, Semifinals, and Finals indicate the ability to advance through tournament brackets and compete at higher levels. Overall, the results reflect growing competitive experience and consistent performance across different tournaments.

Year	Win %
2023	50.00%
2024	58.80%
2025	58.30%
2026	44.40%

Key Findings :

- 1) Win rate improved from 50.0% in 2023 to 58.8% in 2024.
- 2) Performance remained stable in 2025 with a 58.3% win rate.
- 3) The highest win rate was achieved in 2024.

- 4) Win rate declined to 44.4% in 2026.
- 5) Overall performance showed growth between 2023 and 2025 before a temporary decline in 2026.

Conclusion :

The performance growth analysis indicates improvement in competitive results between 2023 and 2025, with win rates consistently above 58%. Although performance declined in 2026, the overall trend demonstrates competitive development and the ability to maintain a positive win record across multiple seasons.
